Comments

I this my first go at the proposed rule and DEIS. So many words and so little information. Anyway my concern is about motorized recreation all types but in particular RV's. I own a 38foot motorhome and stay in parks etc. And I belong to the Good Sam club. I DO NOT agree with the use of RV's in the forests. Camping is a great use (sans generators) but do not provide for RV's beyond what is currently built. Take care of what we have but do not expand. Thanks.
