## Comments

I am an active outdoorsman that takes advantage of the areas I am allowed to go with off road vehicles. I also enjoy boating on the many local lakes and rivers. Also my outdoors group and I speak for myself as well as many of our members when I say it is a good bill but please include the use of motorized vehicles and motorized boating in this proposal. I hate to see such nice areas that you can only access on foot, you can never really see and enjoy everything at that pace. In order to keep tight hold on environmental impacts you can institute a trail system that is regulated closely by rangers and volunteer groups to rebuild or make new trails to let the ecosystem rebuild. As for the boating aspect you can enact inspections to make sure there is no fluid leaks and that nothing from the boats contact with the water will effect the ecosystem. Again many non profit and volunteer groups such as mine will be more than happy to help with all of this if your willing to help us enjoy all that the state has to offer. Perhaps you could even enact a nominal fee. Thank you for your time and consideration.

V/R,

Richard Thill
