## Comments

I think the thing that bothers me the most is seeing visitors discarded trash in our forests. I would like to see signs posted "No Littering" and a phone number posted so visitors can report violators. I can't tell you how many times I've seen people discarding trash and in camp sites and along the roads. I would like to see a plan where someone found guilty would be fined and the money going to the Forest Service.

Thank you for your time

Harry
