Thank you Forest Service for your open, thoughtful efforts on the management of our wilderness areas. I've camped, fished, explored the wilderness, lakes, archeology, etc. of New Mexico since 1985, and (being born and raised in Wisconsin) was raised appreciating wonderful natural resources. I think your recommendation is a thoughtful compromise on the preservation and utilization of our environment.

I am very angry that Rep. Pearce has chosen to rally against your proposal, rather than listen to and represent ALL of his constituents. He has positioned himself outside the political process as it is supposed to function. He could have organized an informative or fact-gathering meeting, or taken some similar bi-partisan activity. Instead, he has chosen to represent the personal opinions of him and his friends. This is very wrong.

MY personal rally (against Rep. Pearce) starts today. I'm very disappointed.
