Greetings!

I am an erolled member of the Jamestown S'Klallam and I have a tremendous amount of experience doing archaeological fieldwork.

I have also earned by M.S. in Resource Management and I have started my own firm.

I would be delighted to meet with representatives from your office in order to develop a collaborative effort in documenting oral histories, perhaps getting Tribal youth interested in archaeology, etc.

Although this project is not ground disturbing, it would be a wonderful way to "get my foot in the door," and be able to work with my own Tribe (I currently work for Yakama Nation) and "give back" through cultural preservation.

Thank you,

Gideon Cauffman
