Please, PLEASE dont let State's take over the management of forest's and wildlife, they have proved time and again that they are not responsible and can be bought, that is immoral and potentially ruins the wildlife and forest's, etc for our future generation's to come. You already have a few backwood's States where-in the government rep's are telling the people to illegally break federal laws, Denny Rehberg, it's on video and in the paper, by killing wolves which are for the time being (and hopefully forever for future generation's) protected under federal law. Why do you let people in OUR Government say thing's like this and get away with it? He basically said ,,I,, to the President of the United States, any authority in Federal, and is leading his people to break federal law's. I would think that alone would be illegal and for a representative of our Government to say something like that and get away with it? Under these types of circumstances we might as well be back in the good ole days where they hung horse thieves in the town square publicly. This person is instigating a force of people against federal law's and TELLING them to break them. That is no kind of rep for ANY State in the U.S.A., this guy has an ego bigger than texas and think's he can do anything he wants and screw the fed's or Government law's, why isnt he in jail where he belongs? Take a look at his accounting, you will see alot of funds from ranchers lining his pocket's. We are now at the point where there is a movement going on to boycott beef and it has more than 600 thousand people on board as of now, the number rises every day and it's all because this guy is anti-American, anti-government (although he is a part of that) and anti-wilderness. He's all about the money and hate propaganda. Please look into this and put a stop to his illegal dealing's and ranting and raving against the government, talk about being back-stabbed from the inside, this guy has made a career out of it and thinks he is going to climb the political ladder with the rancher's money backing him, if that happen's I and many others will be moving to Canada or Mexico, close enough to see family who are too stuck to move but far enough away so we dont have to deal with a corrupt government and that would be a very sad day because my family is very patriotic and have had alot of relatives in the armed forces, enlisted and career and still do, we love our Country but this isnt the Country we grew up in, this one bows down to destroyers of wilderness and wildlife which equals destroying the eco system that sustains this planet, this Country let's it's rep's undermine our law's and threaten other rep's and get away with it (Palin should be on trial also regarding Mrs. gifford's. She obviously asked her lunatic followers to take out Gifford's by putting a target on her head and distributing it, then to go on and praise an incumbent that said everyone should go after Gifford's with M-16's, Palin said she (herself) wasnt fit to lick his shoes because he was so patriotic. WTH? Who in their right mind thinks it's patriotic to put a target on another human being's head and gives public kudo's to the maniac's that want Gifford's dead. She almost succeeded too. TAKE CONTROL OF THESE VIOLENT VITRIOLIC WANNA-BE POLITICIAN'S!!! (translation: FIRE THEM)

I want a future for my future generations to come and if each State takes control that wont happen, they will hunt to extinction many species of wildlife and screw this planet so badly by the time my future generations get here they would be luckier if a nuclear bomb went off instead! We are killing our planet from the inside, this has to stop and stop now before it's too late and more species are extinct only to read about them in books when it isnt necessary.

Thank you for hearing me out.

Sincerely,

Sandra Cannon
